

WELLINGTON
SHIRE COUNCIL
The Heart of Gippsland

13 June 2025

Ref: 2102213

Mr Adam Gray
Synergy Wind
PO Box 146
BALLARAT VIC 3353

Dear Adam

**CONSENT FOR AN APPLICATION TO BE MADE FOR INSTALLATION OF CABLES
WITHIN A ROAD RESERVE
GELLIONDALE WIND FARM PROJECT.**

I refer to the letter by Beveridge Williams of 10 April 2025, seeking written consent of the relevant public land manager, in accordance with the application requirement of Clause 36.03-3 (for underground cabling and utility installation on part of Public Conservation and Resource Zone (PCRZ)) where Council is the Public Land Manager.

Wellington Shire Council as the delegated land manager of the Crown Allotments provides its preliminary consent under Clause 36.03-3 (for underground cabling and utility installation on part of PCRZ land) to enable the planning application to progress at this time, and subject to the separate approvals process required to respond to detailed design.

The consent relates to the following locations:

- | | |
|------------|--|
| Crossing 1 | Crown Allotment 72B Parish of Alberton West
VOLUME 11711 FOLIO 782 |
| Crossing 2 | Crown Allotment 2022 Parish of Alberton West
VOLUME 11711 FOLIO 787 |

Council understands the cables will be located underground and that the intention is to employ directional drilling beneath the rail trail land, as opposed to open trenching, so any impacts should be avoided and mitigated. This is Council's preferred construction approach to minimise surface impacts.

Should you have any further queries on this matter, I can be contacted at Wellington Shire Council on (03) 5142 3256 or email: davidh@wellington.vic.gov.au

Yours sincerely

David Harper
Manager Parks and Natural Environment
